are drawn in the mayor and city council races and it's a shame that Hondo has to go through an election where the views span so

Now is the time for Hondo to move forward if it ever intends to do so. It is not the time for entrenched conservative thinking. Nor is it the time for far out liberal thinking. The city needs moderate action that will attempt to look at the entire spectrum and arrive at solutions which will be beneficial to the city as a whole.

I don't care if it does benefit any one group, as long as the final outcome is a plus mark for Hondo. As long as the city is the beneficiary, that is what matters most. Add all the projects accomplished for all groups and you'll see growth.

Cries of discrimination and racism already are filling the air. A front page story in the El Informador launched a strong attack against J. G. Barry as a candidate for mayor. Some broad and vicious charges were thrown in what I would consider a careless

Perhaps there are some truths hidden in these charges, perhaps not. We do know that in our own way many of us practice discrimination and racism. Some of us are not aware of it. Some of us do it deliberately. Some of us don't stop to think or we would not do or say things that hurt someone else.

But to me the launching of such an attack on one candidate and not chastizing your own for the same faults can be classified under the same title: discrimination and racism. There was never a more perfect double edged sword than racism; it cuts deep, hard to heal wounds with both sides.

I would hope that all candidates would tell the voters what they hope to accomplish for HONDO and all the people living in the city if they get elected, tell the voters what problems need solving and how the candidate intends going about solving it; tell the people how the candidate intends to build the city; tell the people how the candidate hopes to take care of as many problems as possible and small amount of taymoney as possible.

But for the sake of all of us and our children and their children, let's hope the candidates [and I include all who are running] don't follow a course that will tear down instead of improve our

Contract performance is expected In the amount of \$600,442, the announcement. "They are a first with actual student flying set to begin May 17.

Hondo was selected as the training site because of its proximity to the School of Military Sciences, Officer at Lackland AFB. The Officer School, which graduates about 4,000 officers for the Air Force annually, will supervise the T-41 training program.

The Hondo program consolidates the entire training program from nine Air Force bases. Nearly 1,400 Air Force students and 300 from allied nations are expected to complete the program during the first year of operation.

Rodney Robertson, president of Del Rio Flying Service, said his service will provide instructors and maintenance and the government provides the planes.

Robertson said, "I have about 15 of my staff in Del Rio to fill the Del Rio contract which is being terminated, and we will employ some 75 in Hondo. We will operate some 80 T-41 aircraft in the new program.

Now under construction at the Hondo Airbase is a 24,000 square foot hangar building which will house the maintenance facilities and the offices of the service and Air Force personnel, which are expected to number about 17 at the

The building is being constructed by Gary Aircraft Corporation through negotiations between Gary President Art Stewart and the Air Force. "This structure will be leased to the U. S. Corps of Engineers for use by the Air Force and Del Rio Flying Service," Col.

Dear Sir:

The Edwards Underground Water District wishes to express its appreciation to you for informing the public in your area about the proposed cooperative construction of Parker Creek Dam by Medina County and the District

Since the formation of the District in 1960 I have always found the people of Medina County, and particularly your paper, to be cooperative and helpful.

The Board of Directors of the District will hold a special meeting at the Courthouse in Medina County commencing at 11 a.m., March 30, 1973, and after lunch will consider other matters of business than the dam construction. We would be pleased to have your representative present for the bid opening, the luncheon to follow it, and at the meeting afterwards.

Bicycle club will stress safety, fun

Importance of safety while riding bicycles is the primary purpose of forming the Hondo PD Bicycle Club, which will meet on April 1 in the National Guard Armory.

City Patrolman Arnold Guaiardo and Bill Green are co-chairmen of this effort to stress the importance of safety to all bicycle riders, young and old alike.

'At that first meeting," Guajardo said, "we will issue membership cards, elect officers and distribute a booklet titled "What Everyone Should Know About Bicycles". The booklet is printed by the Channing L. Bete Co.

The Hondo PD Bicycle Club is open to young people and adults. We intend having fun in this lub " the chairmen said. "We will explain safety rules and take bike rides, and later on will even have overnight bike riding trips.

Anyone interested in joining the club should contact Guajardo at 426-3911 or Green at 426-2612.

'What rural Texans and those who live in the 45th Legislative District are thinking will greatly influence what the Texas Legislature does during the course of the 63rd session," Rep. Poerner said.

"It was for this reason that I distributed these questionnaires to each of my constituents. Most members of the Legislature have strong personal feelings about various issues; nevertheless, it is the rule rather than the exception that the people are represented pursuant to their requests.

"During these first 60 days, I have gained a better insight of those I represent by talking with you, working with you on various legislation, corresponding with you and by reading your opinions in the questionnaire.

He concluded: "I am most pleased to announce this tabulation and assure you that I am sending a copy to the Governor, each Representative and each Senator so that all can be aware how you feel on each of these questions.

Wasn't the ANVIL HERALD's March 1 tribute to the 125th anniversary of Medina County well merited and well presented?

The county was less than 40 years old when the life of this newspaper began. Now, it has been its "Leading Newspaper since 1886", as each succeeding issue proudly proclaims.

Its complete history was presented by the late Mr. FLETCHER DAVIS and by BILL BERGER in the Diamond Anniversary issue of Dec. 29, 1961. [If you didn't keep your copy, you should have!] I treasure mine and refer to it every now and then. Now I am adding the 3-1-'73 issue to keep it company.

The Rev. CYRIL M. KUEHNE, S.M. sent his congratulations in a letter addressed to me, but the credit belongs to BURNIS LAWRENCE and his capable assistants, all of whom he named in his SPARKS column. I am sending the letter to him.

I was pleased to learn that Fr. Kuehne has a new book ready for publication. Its title is HURRICANE JUNCTION, a history of Port Aransas. And, guess who will be ordering an autographed copy? Room will be provided for it on my reference shelf, right alongside RIPPLES FROM MEDINA LAKE.

To whom it may concern: Having just recently discovered that the complexities of our English language include a verb "to bird", I am putting it to work here and now:

Not to be out-birded by one currently popular Johnathan Livingston of the same family name], our Gulfside Seagulls are now returning to their daily aerial acrobatics which they had temporarily discontinued during the closing winter's temperamental temperatures.

The gulls are back on schedule, making their own movie spectacular, in color, as they skim over, around and through the constatnly changing formations of cloud props against a backdrop of a blue, blue sky that waits until after the performers retire for the night before becoming star-spangled.

This is bluebonnet time and I miss the wide expanses and smaller patches of them that identify the return of spring in Medina County.

Nostalgia was about to overcome me completely when I saw a sample showing of the bonnets emerge as a neighbor across the lane was cutting his lawn.

Lawns in the Hondo neighborhood where I lived for almost nine years before the move to the coast has a patchwork cover of the state's flower every year. I failed to bring seeds which I had carefully saved but the C. B. [Jewel] GASTON Seed-Saving Company promised an

ample supply for next year.

"Josh Billings" claimed that it was better to know nothing than to know what ain't so. So it is that I confess, unashamedly, to knowing absolutely nothing about what is called a widely applicable law known as "Miles' Law".

It is credited to Rufus Miles, a former career administrator of the Dept. of HEW and it states that "Where you stand depends on where you

If the maxim contains a moral it might be "Watch a little out where you sit."

Just because it is car-license paying time again, this bit of information (gleaned from the 1909 files of "Medina County's Leading Newspaper"] seems pertinent, and guaranteed not to warrant a wish for a return of the not-so-good old days:

Medina County owners of "riding machines" paid a registration fee of fifty cents to the county clerk, the speed limit was 18 mph, and horses had the right of way over cars.

Proof of how well some of our county officials have worn [without wearing out] was found as I compared the list of those named in the 75th edition of the ANVIL HERALD with the more recent No. 9 of 1973.

On duty then and still at their elected tasks are HENRY SCHULTE, county clerk; ALFRED ROHRBACH, tax collector; C. F. SCHWEERS, county superintendent; and our "High Sheriff", C. J. HITZFELDER.

Calls for congratulations, or sympathy, or something!

Hondo was scoreless in the second but the Laredo team added three more runs to the tally. Kenny Weynand scored in the third for the Owls, but St. Joseph's returned fire with another three runs in their half. The next inning saw St. Joe add two more scores for a 10-2 margin. The leadoff man in the fifth, Gordon Bohmfalk, walked. An error put Walch on, then Zinsmeyer, too. Another error put Knowles on and the race began. Muniz doubled, Prescott singled and in all, six Owls crossed the plate in the fifth inning. Knowles added another run in the seventh inning on Steve Mueller's double but St. Joseph's held a

one-run lead to win 10-9. In the Hondo-D'Hanis game Saturday evening, Lee Roy Reves of the Cowboys reached base on an error in the second inning. Allen Huser dousingled. David Nester also singled and the Cowboys 3-0 lead. Bobby Cox scored in the top of the third after a walk and an error. In the fifth inning Hondo added three runs on Weynand's double, Bohmfalk's base on an error, Knowles' single, and a passed ball which scored Bohmfalk. Knowles later

scored on an error. The next inning Prescott added another run for Hondo but it was matched by Ricky Rothe's score on singles by David Gallegas and Huser. Walch added another Owl run in the 7th inning to make the final score Hondo 6, D'Hanis 4.
